

GIS Technical Assistant, Arizona Geological Survey
October 15, 2008

The Arizona Geological Survey (AzGS) is seeking a GIS Technical Assistant with experience using ESRI ArcGIS software, and familiarity with standard relational database operations using SQL. Background in geoscience is preferred. Work assignments will include digitizing, spatial and table-based data editing, quality checking, map layout, and cartographic editing for geologic maps. Position is temporary, with 9-12 months commitment, up to full time, with benefits, \$12 to 16/hr depending on experience. Please send a resume to Steve.richard@azgs.az.gov. Position will be filled when a suitable candidate is found.

Stephen M. Richard
Section Chief, Geoinformatics
